NOTICE OF APPLICABILITY OF RESOLUTION NO. R5-2003-0106, CLARKSBURG WINE COMPANY LLC, YOLO COUNTY

Staff has reviewed your 25 May 2004 application for coverage under Resolution No. R5-2003-0106, the *Waiver of Waste Discharge Requirements for Small Food Processors, Including Wineries*. Additional information was received on 24 August 2004. We received the required application fee of \$872 on 30 April 2004. No additional fees are required.

Discharge Description

The Discharger plans to operate the Clarksburg Wine Company LLC winery at 35265 Willow Avenue in Clarksburg, Sacramento County. The land and winery buildings are owned by Clarksburg Investment Partners, LLC.

The Discharger estimates that 2,000 to 5,000 tons of grapes will be crushed each year and that 6,000 to 36,000 gallons of wastewater will be generated each week, with the higher flow rates occurring during the crush season (August through November). Winery wastewater will be stored onsite in a 26,000-gallon stainless steel tank with secondary containment, and will be periodically hauled for disposal at an appropriately permitted wastewater treatment facility.

Residual solids from the winery operation will be collected in leak-proof bins, dumped into a waste dumpster box, and subsequently trucked for disposal at the Yolo County Landfill. All outdoor processing areas, including the waste dumpster area, are on concrete pads with drains that collect liquid spillage and convey it to the wastewater storage tank.

The Discharger has submitted a Notice of Intent to comply with the terms of the General Permit to Discharge Storm Water Associated with Industrial Activity (State Water Resources Control Board Order No. 97-03-DWQ)

Conditional Waiver

Based on the information submitted in the Report of Waste Discharge, the discharge as described above satisfies the general and specific conditions of Resolution No. R5-2003-0106 for the onsite storage and offsite disposal of winery wastewater. Therefore, this letter serves as formal

California Environmental Protection Agency

notice that Resolution No. R5-2003-0106 is applicable and waste discharge requirements for this facility are waived.

Enclosed is a copy of Resolution No. R5-2003-0106 and the associated monitoring and reporting program. As described therein, an annual report must be submitted by **1 February of each year**.

If the discharge violates the terms or conditions of the waiver, the Regional Board may take enforcement action, including assessment of administrative civil liability. Please note that the waiver will expire on 11 July 2008, at which time you must submit a new RWD with filing fee to renew the waiver or cease the discharge.

If you plan to change the methods of winery wastewater and solids disposal, you must submit a new RWD for coverage under the waiver or individual Waste Discharge Requirements before any changes are implemented.

If you have any questions regarding this Notice of Applicability, please contact Anne Olson at (916) 464-4740.
